

Responsive and Professional Support that Maximizes Your Assets Utilization and Lifespan

We fully appreciate the financial and operational constraints you face. We also understand that optimizing costs must go hand in hand with ensuring a high level of support.

Choosing Christie Innomed to manage your different modalities and vendors, you will benefit from improved service-level consistency and greater cost-efficiencies.

As the largest independent medical equipment distributor and service provider in the country, we bring a level of flexibility and contract customization to each account that other vendors cannot.

Christie Innomed has provided confidence and continuity to both hospitals and clinics across Canada for 65+ years.

As the largest independent medical equipment distributor and service provider in the country, we bring a level of **flexibility** and **contract customization** to each account that other vendors cannot.

You focus on patient care. We handle the rest.

Leave your diagnostic imaging and biomedical equipment support needs with a single trusted service provider.
